

Environment, Forest and Climate Change

Natural resources such as lakes, rivers, forests, wildlife, etc. have a pivotal role in Indian lifestyle but growing population of the country is increasing pressure on environment. The primary concern of the government is to implement policies and programmes for conservation of the ecosystem, natural resources, welfare of animals and prevention of pollution etc. In this section, we have highlighted initiatives taken by the government and various organizations for conservation and protection of flora and fauna, forest and wildlife, and for control of pollution.

Defence

MSMEs are important partners in Defence projects. They are important partners in industry ecosystem for the production of Defence developed products. Defence through its schemes funds industries, especially Startups and MSMEs.
