Report	<p>The objectives of this session cum workshop was to guide faculty on how to plan ISA and SEE papers and to assess answer papers keeping in mind calculation of attainment matrix. Dr. Valerie Gonsalves introduced the meaning of programme outcomes (PO), programme specific outcomes (PSO) and course outcomes (CO), followed by drawing scores of CO against PO and PSO. She also enlightened the audience on planning the ISA keeping in mind assessing all the CO. She presented the technique for creating a blueprint for question papers followed by calculating scores for various CO. Further, Dr. Valerie demonstrated calculation of scores achieved by students for various CO. Dr. Nadine de Souza then meticulously demonstrated the working of the excel file for calculation of attainment matrix for the class. She demonstrated the filling of data in the respective excel sheet tabs. She also mentioned tips and tricks to avoid errors. Dr. Nadine emphasized the need to maintain a separate excel file of all data that is used for calculating attainment matrix. Dr. Nadine and Dr. Valerie helped teachers troubleshoot errors they encountered while working on their files. The Resource Persons tried to address issues raised by the faculty. At the end of the session, the teachers understood planning of question papers for ISA and SEE keeping in mind the coverage of all CO. They were acquainted with using the file for calculating the attainment matrix. The two sessions were attended by a total of 29 faculty.</p>
