Stratum of Event	Exchange Programme
Name & details of Resource Person/s	--
If any	
Report	<p style="text-align: center;">Visit to the Studio and Recording</p> <p>On the 18th of September 2025, SYBCA had the privilege to visit the Mass Communication Studio under the guidance of Mr Worrel D'Souza. The purpose of the visit was to gain practical exposure to the functioning of media equipment and to understand the process of recording and live editing as the BCA students are on the editing side of it and they would get first hand information of the recording techniques</p> <p>During the course of the visit, they participated in observing and applying the technical aspects of recording to record a debate held by the class.</p> <p>Mr. Lisvan Rodrigues from the Mass Communication department explained to us the talkback system and learned how it is used for smooth communication between the control room and the studio</p> <p>They were then introduced to live editing techniques. This showed them</p>

	<p>how switching between different camera feeds happens in real time. This enabled the class to smoothly transition between scenes when the debate was in process.</p> <p>After the explanations we they hands-on experience with studio cameras, along with instructions on how to maintain the right angles, focus, and framing. Through this they understood how media production requires teamwork and coordination. We gained knowledge of technical terms like talkback, live editing, and camera setup.</p> <p>The session gave them a real-world experience of how professional studios function.</p>
