In collaboration with	
Name/s of Faculty Coordinator	Prof. Oscar Braganca De Melo
Stratum of Event	
Name & details of Resource Person/s If any	Mr. Anand A. N.,
Report	<p>St. Xavier's College, Mapusa, in association with the <i>Cell for Career Guidance & Training for Competitive Exams</i>, organized an informative and career-oriented talk conducted by an IBM spokesperson. The session was delivered by Mr. Anand A. N., representing IBM, and focused on the IBM SkillsBuild platform along with a briefing on certification courses in Artificial Intelligence, Cybersecurity, Data Science, and Management Studies. The objective of the talk was to create awareness among students about industry-relevant skills and globally recognized certifications.</p> <p>The session began with an interactive introduction round where students were encouraged to introduce themselves by stating their names and personal passions. This activity helped create a comfortable and engaging learning environment. Following this, Mr. Anand presented an introductory video explaining the IBM SkillsBuild platform. The video highlighted the platform's wide range of learning content and emphasized that the certifications offered are accepted at a</p>

	<p>global standard, making them valuable for both academic growth and career development.</p> <p>After the overview, a guided registration process was conducted. A WhatsApp group link was first shared with the participants to ensure smooth communication. Students were then assisted in registering on the IBM SkillsBuild platform. As part of a live demonstration, participants completed a short demo course on Generative AI and Content Creation, which provided hands-on exposure to the learning interface and course structure. During this activity, students also explored various other available courses across multiple domains such as AI, cybersecurity, data science, and management studies.</p> <p>The session concluded with a short question-and-answer round, where students clarified their doubts regarding certifications, course duration, and career opportunities linked with the platform. Overall, the talk was highly informative and practical, offering valuable insights into modern skill development and industry expectations. The event successfully motivated students to upskill themselves using globally recognised learning resources provided by IBM.</p>
