Report	The workshop aimed to create awareness about sustainable household waste management by demonstrating simple, clean, and effective home composting techniques. It also sought to encourage students to adopt environmentally responsible practices and inspire them to contribute towards waste reduction, biodiversity conservation, and sustainable living. The workshop combined an engaging presentation with practical demonstrations, highlighting the importance of converting kitchen waste into nutrient-rich compost. Mr. Siqueira shared his inspiring journey of transforming an abandoned plot into a self-sustaining biodiversity garden and demonstrated low-cost, eco-friendly composting methods suitable for every household. Participants actively interacted with the resource person during the question-and-answer session, making the programme highly informative and engaging. The workshop enhanced participants' understanding of composting, organic waste management, and sustainable living. A total of 106 participants, including undergraduate students and faculty members, benefited from the workshop.
