

ST. XAVIER'S COLLEGE, MAPUSA GOA
Report of Activity conducted in the Academic Year 2026-27

Name of Activity	Talk on Design Your First AI Agentic Workflow
Date/Duration	22 nd September 2026
Venue	Department of Electronics, St. Xavier's College, Goa
Name of organizing Department/Cell	Department of Electronics St. Xavier's College, Mapusa, Goa
In collaboration with	
Name/s of Faculty Coordinator	Mrs. Vilma M.T. Fernandes Mr. Daryl Gonsalves
Stratum of Event	Department of Electronics
Name & details of Resource Person/s If any	Mrs. Komala Soares, Head of Department Electronics Engineering Government Polytechnic Panaji (GPP) Mrs. Poonam Gupta, Government-Certified Career Planner
Report	The Department of Electronics, St. Xavier's College, Mapusa – Goa, organised a hands-on workshop on “Design Your First AI Agentic Workflow” on 22nd September 2026 in the Electronics Lab. The workshop aimed to introduce students to the emerging field of Artificial Intelligence and provide them with practical exposure to AI agentic workflows and automation. The session was conducted by Mrs. Komala Soares, who introduced the participants to the concept of AI Agentic Workflows and explained how AI agents can be designed to perform tasks, make decisions and automate processes. She further conducted a practical, hands-on session using the n8n workflow automation platform, where participants learned to create workflows and connect AI agents with applications such as Telegram. This enabled the students to gain practical experience in developing AI-driven automation workflows. Mrs. Poonam Gupta, also addressed the participants on career opportunities in Artificial Intelligence and emerging technologies. She discussed the changing career landscape and the growing opportunities created by AI, helping students understand the importance of developing relevant AI-related skills for their future careers. A total of 14 students participated in the workshop. The session provided participants with a valuable combination of hands-on

	experience in AI agentic workflow automation and insights into career opportunities in Artificial Intelligence and emerging technologies. The workshop was an informative, engaging and enriching learning experience, encouraging students to explore the possibilities of AI and develop skills relevant to the evolving technological landscape.
